OFFICIAL SCIENTIFIC SUBMISSION AND POSTER TEMPLATE

PACAM 2027 — Scientific Abstract, Case/Experience Report and Full Paper

Document field	Information
Document code	MOD-CIENT-001/2026
Version	1.0
Event dates	April 23, 24 and 25, 2027
Location	Foz do Iguaçu, Paraná, Brazil
Entity	PACAM PARAGUAY E.A.S. | RUC 80173825-3

Institutional document subject to approval by the PACAM 2027 Academic Committee.

www.pacam2027.com

1. GENERAL INSTRUCTIONS

This document shall be used as the formatting reference for scientific papers submitted to PACAM 2027. The version submitted for evaluation must be anonymized. After acceptance, the final version must include complete authorship and affiliation details.

Element	PACAM 2027 standard
Paper	A4, portrait orientation
Margins	Top/left: 3 cm; bottom/right: 2 cm
Font	Arial 12 pt for body text; Arial 10 pt for long quotations/captions; Arial 8 pt for notes
Spacing	1.5 in body text; single spacing in abstracts, tables, notes and references
Title	Arial 14 pt, bold, uppercase, centered
Authors — final version	Full name, affiliation, city/country; ORCID recommended
References	Vancouver style
Evaluation file	Anonymized PDF
Final file	PDF and, if requested, editable DOCX

BLIND REVIEW: Do not include names, institutions, email addresses, acknowledgments identifying the authors, or any information that reveals authorship in the file submitted for blind review. These details must be entered separately on the platform.

2. TEMPLATE — CATEGORY A: SCIENTIFIC ABSTRACT

SCIENTIFIC PAPER TITLE

Category: Scientific Abstract

[AUTHORSHIP OMITTED IN THE VERSION FOR BLIND REVIEW]

ABSTRACT

A structured text of 300–500 words, concisely presenting the background/introduction, objective, methods, results and conclusion. Do not include references in the body of the abstract, except in exceptional cases where specifically authorized.

KEYWORDS AND ENGLISH ABSTRACT

Keywords

Enter 3–5 keywords. The use of standardized descriptors (DeCS/MeSH) is recommended where applicable.

Title in English

Provide a faithful translation of the title.

Abstract

Provide an English version of the abstract when the main text is in Portuguese or Spanish.

Keywords

Enter 3–5 terms in English.

3. TEMPLATE — CATEGORY B: CASE REPORT OR EXPERIENCE REPORT

REPORT TITLE

Category: Case Report / Experience Report

ABSTRACT

Up to 250 words, in a single paragraph, summarizing the context, case/experience, main findings and conclusion.

INTRODUCTION / CONTEXT

Present the relevance of the case or experience, the setting, and the question that justifies the report.

CASE OR EXPERIENCE DESCRIPTION

Describe the chronology, setting, intervention, conduct, process or experience objectively. Clinical or personal data must be anonymized.

DISCUSSION

Relate the experience to the literature, protocols, evidence or existing practices. Highlight lessons learned, limitations and applicability.

CONCLUSION

Present the main lessons and implications of the report without introducing new information.

ETHICAL CONSIDERATIONS

Where applicable, report ethical approval, consent, institutional authorization and confidentiality measures.

REFERENCES

List only references cited, using Vancouver style.

4. TEMPLATE — CATEGORY C: FULL SCIENTIFIC PAPER

SCIENTIFIC PAPER TITLE

ABSTRACT / RESUMO

A structured abstract of up to 300 words and an English version. Include 3–5 keywords.

1. INTRODUCTION

Provide context for the topic, identify the gap or problem, and explain its scientific/professional relevance.

2. OBJECTIVE(S)

State the general objective and, where relevant, specific objectives or hypothesis.

3. METHODS

Describe the study design, population/sample, criteria, instruments, procedures, variables, analysis and ethical considerations. Reviews must specify the search strategy and selection criteria.

4. RESULTS

Present findings clearly, using tables, charts or figures only when they improve understanding.

5. DISCUSSION

Interpret results in relation to available knowledge, limitations, practical implications and scientific implications.

6. CONCLUSION

Address the objectives and highlight contributions without going beyond the results.

7. CONFLICTS OF INTEREST AND FUNDING

Declare conflicts of interest and funding sources. If none, state “The authors declare no conflict of interest” and/or “No external funding.”

8. USE OF ARTIFICIAL INTELLIGENCE

When a generative tool has been used materially, state its purpose and scope. The tool must not be listed as an author.

9. REFERENCES

Vancouver style, numbered in order of citation.

5. TABLES, FIGURES AND IMAGES

- Number tables and figures consecutively and cite each one in the text.
- Include a sufficiently descriptive title/caption and identify the source or authorship.
- Avoid decorative images that serve no scientific purpose.
- Do not include faces, names, medical record numbers, enrollment numbers, license plates or other identifiers without appropriate authorization.
- Use resolution sufficient for reading and printing; charts must remain legible when reduced.

6. FILE NAMING CONVENTION

Suggested format: PACAM2027_[CATEGORY]_[AUTHOR_SURNAME]_[SHORT_TITLE].pdf.

The platform may generate an automatic filename and submission code; in that case, the system identifier shall prevail.

7. SCIENTIFIC POSTER TEMPLATE

The poster should be vertical, with a recommended size ratio of 90 cm wide × 120 cm high, unless otherwise instructed by the Committee. The design should prioritize readability from approximately 1.5 meters away.

Element	Recommendation
Format	Vertical / portrait — 90 × 120 cm
Background	Preferably light-colored with high contrast
Title	60–72 pt, bold, readable from a distance
Authors/Affiliations	32–40 pt
Section headings	30–36 pt, bold
Body text	24–32 pt; avoid long blocks
Figures/Charts	High resolution with legible captions
QR Code	Optional; may link to an approved abstract/paper without exposing inappropriate personal data

7.1. SUGGESTED POSTER STRUCTURE

- Header with PACAM 2027 logo, title, authors and affiliations.
- Introduction / Context and Objective.
- Methods or Case/Experience Description.
- Results and Discussion.
- Conclusion.
- Essential references and, where applicable, acknowledgments/funding/conflicts of interest.

7.2. REFERENCE VISUAL LAYOUT

Suggested poster section layout
INTRODUCTION / OBJECTIVE
RESULTS
METHODS / DESCRIPTION
DISCUSSION
CONCLUSION
FIGURES / CHARTS
REFERENCES / ETHICS
CONTACT / OPTIONAL QR CODE

The layout above is illustrative. Content should be adapted to the paper category while preserving visual clarity and a logical sequence.

8. PRE-SUBMISSION CHECKLIST

- Selected the correct category.
- Removed identifying information from the blind-review version.
- Checked the language, title, abstract and keywords.
- Included an ethics statement where applicable.
- Disclosed conflicts of interest and funding.
- Checked references and citations.
- Verified authorship, author order and affiliations in the system.
- Generated a legible PDF without comments, tracked changes or unnecessary metadata.
